Subject: RE: Hall Brother's Request for Reconsideration of the Indian Creek Nutrient TMDL

Thanks Helene – could we (you me and Jen) have a short discussion some time tomorrow or Thursday about this? I forwarded a direct communication from Telford to DOJ and Curtin and copied you, proposing that I talk to them sometime Thursday. You and Jen would be welcome but not necessary to be on that call. I will look for a time on scheduler to talk with you both.

Chris

Subject: FW: Hall Brother's Request for Reconsideration of the Indian Creek Nutrient TMDL

Happy New Year! Hope your holidays were relaxing, fun and rejuvenating! Now back to work. . .

Attached is a request from Telford and the Halls for another reconsideration of the Indian Creek Nutrient TMDL. They have submitted additional data for PADEP and EPA to consider.

Jen: Would you please set up a meeting within the next couple of weeks to discuss next steps and EPA's response.

Many thanks and don't shoot the messenger!

Helene
